

Lindal Cedar Homes, Inc.

6840 Fort Dent Way #220
Seattle, Washington 98188
United States

Phone: (206) 725-0900

Lindal Cedar Homes is a Seattle-based custom home design and materials company known for its post-and-beam cedar homes, modern architectural collaborations, and long-standing family ownership. They've been operating since 1945 and remain one of the most recognized names in premium cedar home packages. They design architecturally distinctive homes using post-and-beam construction, which allows for large open interiors and extensive glass. Family-owned and operated since 1945. Lindal Cedar Homes has a 75-year tradition of excellence in designing and building beautiful homes. Lindal offers various levels of customization during the design process. The final design includes fully engineered construction plans backed by the industry's only Lifetime Structural Warranty. The company is also dedicated to customer service. Why settle for anything less than the custom luxury of a Lindal cedar original? There's one for every lifestyle, every building site, and – best of all – every budget. Over 150 independent dealers have built over 50,000 Lindal cedar homes across the United States, Canada, Japan, and many other countries.
