Dura-Tuff Wear Products manufactures and supplies grouser products, ice lugs, and others. They are located in South Salt Lake, Utah. Dura-Tuff Wear Products manufactures and distributes patented G.E.T. and wear products through heavy equipment dealers for construction and mining companies worldwide. Many sizes are available in stock, providing an average order turnaround of 2 business days. The company has been committed to making the longest-lasting and most durable wear products since 1986. Dura-Tuff was started in 1986, called initially W.M.C. A few years later, it changed its name to Dura-Tuff to emphasize the durability and toughness of its grouser products. Dura-Tuff has precisely what you need. When you need grouser trackpads, excavator track shoes, bulldozer trackpads, excavator ice lugs, or bolts for grouser bars and ice lugs.
