Fort Collins, Colorado 80522
United States

Phone: (970) 490-8080
Fax: (970) 490-8081

In Fort Collins, Colorado, Heath Steel can provide virtually any pre-engineered steel building - sometimes referred to as a prefabricated steel building - you need. From a simple Smart Building™ to a multi-building, commercial retail center, Heath Steel can deliver the metal building package to meet your schedule and budget. The company can provide the project management and expertise necessary to erect the building. Heath Steel specifies, distributes, and erects Chief Metal Buildings. Heath Steel also partners with other leading manufacturers of specialty wall and roof panels and accessories to provide the look, design, specifications, and functionality you seek.
