Founded in 1989, DynaLock Corporation specializes in manufacturing high-security locking and access control products. The company manufactures UL-listed electromagnetic locks and delays egress systems. Additional products include UL-listed power supplies, exit controls, and custom consoles. DynaLock's modern 18,000-square-foot facility utilizes the latest computerized machining centers and robotics. Incorporating no moving parts and requiring only occasional cosmetic cleaning, the locks are built to last. DynaLock products include: Delayed egress systems, Electromagnetic locks, Electromechanical locks, Push buttons, Strikes, Electromagnetic door holders, Custom length housings. All DynaLock standard products come with a DynaLife® Lifetime Warranty. DynaLock Corporation's Website features Its Product Catalog, Product List Price, Installation Videos, and FAQs.
