EnviroVantage is a full-service environmental remediation company based in Epping, New Hampshire. The company specializes in asbestos abatement, lead paint removal, mold remediation, water mitigation, PCBs removal, demolition, ductwork, decontamination, disaster recovery, historical restoration, and environmental clean-up. EnviroVantage experts' staff are cross-trained for multiple contaminants, fall protection, lift/lull, confined space training, and access to all the necessary equipment for this type of work. Effective water mitigation includes assessing the extent of the water damage, removing standing water, drying the affected area, and sterilizing soaked items. EnviroVantage offers 24/7 emergency services.
