Phone: (866) 485-8200
Fax: (801) 485-4288

mmToolParts.com and the M&M Tool Group in Salt Lake City, Utah, have a unique and personal relationship with each manufacturer they sell and service. Among other distinguishing points, they have achieved Makita Pro-Dealer Status and Bosch Systems Specialist Dealer Status. According to Bosch and Makita, these titles are shared by only the most experienced and qualified vendors. The M&M Tool Group is the only online tool company to offer an interactive power tool and machinery recommender, the Tool Finder, allowing users to input specific information about their needs and preferences and receive immediate recommendations based on that information. Additionally, mmToolParts is proud to offer a complete in-house repair center and happily provides free repair quotes to tool and machinery users needing a tune-up—power tools, machinery, replacement parts, and woodworking and construction equipment repair.
