H. Hirschmann, Ltd. in West Rutland, Vermont, designs and manufactures custom wood windows and doors to meet the highest architectural standards for the residential, commercial and institutional project. Built specifically for H. Hirschmann LTD, their manufacturing facility houses several state-of-the-art manufacturing features and equipment including humidification control, muffled dust collection duct systems, enclosed spray booth, and loading dock. The company's commitment to time-honored woodworking techniques, combined with a desire to apply new technologies and modern practices, has led to many noteworthy achievements over the years – as it has built its reputation for excellence in quality, innovation and customer service throughout New England, the East Coast and beyond.
