Ramtech is a modular design, manufacturing, and construction company and a leading provider of modular building systems in Mansfield, Texas. It has provided modular buildings to commercial, institutional, and government customers throughout the Southwest since 1982. The company develops specific floor plans to create value-engineered designs that will provide you with the modular buildings that best fit your requirements and budget. Ramtech has provided more modular buildings to government agencies, educational institutions, healthcare providers, and commercial organizations than any other company in the Southwest. The company has completed over 3,500 projects using its extensive resources and experienced personnel, enabling us to provide our clients with a faster building process with less overall design and construction costs. Whether for relocatable modular buildings or our two types of permanent modular construction using a pier and beam or slab-on-grade approach. The company's website highlights its services, safety and loss prevention policies, and a gallery of recent projects.
