Stone Bridge Iron & Steel, Inc., headquartered in Gansevoort, New York, is a metal fabrication company providing structural steel design services, steel beams, metal fabrication, and structural steel erection services. Stone Bridge services various clients, ranging from educational institutions and high-tech manufacturing concerns to large retail projects and the aerospace industry. Quality control is taken seriously as a provider of structural steel and metal fabrication services. Inventory is tracked, and heat numbers follow the material through fabrication. All steel beams, structural steel, and other materials are inspected before shipment. With a national reach, its service area covers New York State, New England, and other parts of the U.S. Stone Bridge is an AISC Quality Certified Fabricator achieving the AISC's STD certification with a P1 paint endorsement. Its stringent QA/QC plan covers all jobs, maintaining complete material traceability. Inventory is tracked, and heat numbers follow the material through fabrication. All steel beams, structural steel, and other materials are inspected before shipment.
