Trueform Concrete, LLC, in Wharton, New Jersey, is a concrete countertop fabricator specializing in concrete fireplace surrounds, concrete tables, concrete sinks, and other concrete products. As a specialty GFRC fabricator, Trueform Concrete has extensive GFRC knowledge and over a decade of experience collaborating alongside the brightest architects and designers on build-to-spec concrete projects. The company fabricates decorative precast concrete products for both residential and commercial applications in the Northeast. Trueform Concrete has a complete product showroom at its facility. Local projects can be templated and delivered, whereas national projects can be built to spec and shipped to your project location.
