United States

Phone: (763) 753-9796

Dupont Decks is a residential deck building company specializing in new deck construction and deck facelifts on existing decks in the Minneapolis and St. Paul areas. Part of its estimate procedure is to project a timeline so that you will know when all the work will be done, and you can enjoy sitting out on your new deck or using your new room addition. The company keeps its family-owned and operated business small to maintain strong relationships with its clients. As a licensed and insured Minnesota Builder, Justin and his team take great care to give the most accurate job estimate and work quickly and thoroughly to complete your job on time.
