Cedar Homes of Washington Inc. offers pre-cut laminated timber kit homes in Lynden, Washington. Timber kit home packages are unique in the log home industry, incorporating several different wall system options to meet clients' expectations, budgets, and energy requirements for your area. These Laminated timbers and energy-efficient wall systems leave all the worry and maintenance out of the picture. The laminating process eliminates much of the core moisture and allows for fast wall assembly - without the excessive settling in traditional log homes. Incorporating a Thermal break into our Laminated wall systems has opened new doors for everyone! Material packages are pre-cut to your specific design and shipped for fast assembly at your job site. This kit home manufacturer provides comprehensive construction blueprints, a manual, and unlimited technical assistance via a toll-free line. These Modern yet classic Cedar Homes are unique in the log home industry because the company uses decorative grade laminated cedar wall timbers. With its laminated wood wall system, Cedar Homes of Washington customers enjoy natural wood's beauty without the hassles!
