Everlast Roofing, Inc. is a metal roofing and siding manufacturer with corporate office and manufacturing facility in Lebanon, Pennsylvania. Everlast products include agricultural, commercial, industrial, architectural metal roofing and siding. With other facilities in Maine and Indiana, Everlast Roofing serves clientele throughout the Northeast, Middle-Atlantic and Mid-West Regions. Everlast Roofing continues to set new benchmark standards in corrosion resistance with the introduction of AZM® with Activate® Technology. The new generation product responds to market demands for a more durable, resilient, and sustainable product to give end users the piece of mind for years to come. Backed with a 20-year proven record of outperforming all others in both accelerated laboratory and real-world harsh environment exposure tests, Everlast Roofing is the only company to offer this technology in North America.
