In Gilroy, California, the GB Group is a reconstruction and painting contracting firm providing construction services throughout Northern California and the State of Nevada. The company has provided construction services for the HOA industry, apartments, high-rise communities, and select commercial projects. The GB Group is certified and prepared to manage all forms of toxic molds and fungi contamination. It is an accredited expert in assessing, containing, and remediating these health hazards. The firm hires creative and dedicated people who provide quality reconstruction services with fairness and integrity to customers, suppliers, and each other.
