Remedial Construction Services, L.P. (RECON) is a national environmental remediation, geotechnical construction, and civil construction contractor headquartered in Houston, Texas. Over the past 30 years, RECON has developed and improved various technologies for environmental remediation and geotechnical construction. The company provides environmental remediation services, including soil stabilization and solidification, landfill cap and cell construction, permeable reactive barriers, deep soil mixing, biopolymer trenches, slurry walls, and demolition of hazardous waste sites. RECON's geotechnical division specializes in constructing groundwater cut-off walls, earth retention systems, and soil modification techniques. Keller acquired RECON Services, Inc. (RECON) on Jul 27, 2021.
