TOTAL Mechanical, Inc. is a single-source mechanical contractor headquartered in Pewaukee, Wisconsin. The company offers commercial, industrial, and residential HVAC, electrical, plumbing, and fire protection services. TOTAL Mechanical is a premiere commercial HVAC contractor, offering comprehensive services for virtually any commercial, industrial, and institutional building. Its focus on energy efficiency means that your HVAC mechanical systems will provide year-round comfort while lowering operating costs, giving you the greatest return on your investment in this mission-critical equipment. The plumbing team at TOTAL Mechanical comprises engineers, pipe-fitters, and technicians who are prepared to take on any project, regardless of size or complexity. This has led to us being a leader in the commercial/industrial Hot & Chilled Water Piping, Refrigeration Piping, Steam Piping, and Process Piping space. TOTAL Mechanical also provides industrial process solutions, planned maintenance services, cutting-edge automation technologies, and 24-hour emergency service. Service area includes Milwaukee, Waukesha, Jefferson, Walworth, Racine, Kenosha, Washington, and Ozaukee counties.
