Phone: (716) 633-9500
Fax: (716) 633-9850

Birdair, Inc. is a specialty contractor for custom tensile membrane structures headquartered in Amherst, New York, and working internationally. With over 65 years of experience worldwide, Birdair has worked with owners, architects, engineers, and contractors to design and build custom tensile fabric structures to create innovative roofing systems, canopies, and skylights. As a turn-key specialty contractor, Birdair provides pre-construction assistance, including design assistance, budgeting, construction methodologies, and project schedule development. Its in-house capabilities include designing, engineering, fabrication, installing, and maintaining tensile structures. Current and recently completed projects are highlighted on the company's website, and various resources are available for download, including brochures, technical data, and other documents. Working with the contractor, Birdair will assist in developing solutions and methods for installing your tensile structure. Birdair will consider site access, equipment availability, labor requirements, and schedule constraints.
