Northern Marine Construction (NMC) is a Seattle Marine Contractor in Seattle, Washington, serving the greater Puget Sound and Pacific Northwest. Northern Marine Construction provides docks, pile driving, ship-side repair, underwater salvage and construction, bulkheads, drilling platforms, equipment and material hauling, tug services, and environmental services. Whatever your waterfront and marine construction needs, a new bulkhead, retaining wall, dock work/pile driving, building material, equipment deliveries, or something more unusual, Northern Marine Construction is here to help! Its vessel and barge specifications are displayed on the company's website, and any items are available for sale.
