

Cancun Pools

310 East Main Street
Celina, Texas 75009
United States

Phone: (214) 762-7922

Cancun Pools offers pool contractor, pool maintenance, and concrete contractor services to an area surrounding its offices in Celina, Texas. Serving the greater McKinney area, the company specializes in pool construction and concrete installation services, but also pool renovations and maintenance services, including measuring pH levels to prevent bacteria build-up, adding liquid chlorine and liquid acid when necessary, as well as a variety of stabilizing agents, as needed. This means working with you to flesh out a design that aligns with your preferences, complements the surrounding landscape, and reflects your home's existing architecture. Cancun Pools offers state-of-the-art solutions at a price you can afford. To ensure your pool is safe and clean, the company offers regular maintenance services where we measure the pH levels to fight off bacteria and add liquid chlorine and liquid acid when necessary. Depending on the condition of your pool, Cancun Pools can apply stabilizing agents, sanitizers, stain removers, algaecides, water clarifiers, and shock agents, guaranteeing sparkling blue water and longevity in your pool.
