Robbins and Company is a full-service general contractor providing foundation repair services in greater Seattle, Washington. Established in 1952, Robbins and Company started moving houses. Today, the Company's foundation repair projects include a complete foundation, bowed support wall, and sinking slab repairs. Other projects include basement waterproofing and crawl space services, seismic retrofitting, permitting, excavations, erosion control, masonry, plumbing, steel, landscaping, retaining walls, and structure moving services. Regarding basement waterproofing for your Seattle area home, Robbins and Company has you covered. The Company's services are described in more detail on its website, along with a blog, reviews, and affiliations.
