Richburg Stone And Supply has been supplying building stones since 1932. The company is an industry-leading stone supplier located in Oklahoma City, Oklahoma. Catering to contractors and architects, Richburg Stone And Supply offers a selection of limestone and sandstone, including a full line of tumbled building stones patterned exterior stone flooring and pool coping and a complete line of thin veneer stone. Richburg Stone's products are suitable for residential or commercial building purposes, as well as flooring, landscaping, and fireplaces. The company's website displays photographs representing several applications for which its stone products have been used, including several fireplace designs.
