Harrington Process Solutions is a leading distributor of process solutions headquartered in Chino, California, with over 60 locations nationwide. The company is the nation's largest distributor of plastic piping systems. Since opening, the company has increased its reach from the West Coast to Florida throughout New England and Hawaii. Harrington is a trusted leader in offering versatile products to meet the needs of many processes and applications. Harrington's focus on industry requirements, high standards of quality products, dedicated, technically oriented staff, and serviceability in virtually every central market area in the United States have all contributed to its success today. Its facilities house inventories that include PVC, CPVC, PVDF, Polypropylene, fiberglass, and plastic-lined steel, as well as all components for a complete system, such as tanks, grating, pumps, and instrumentation.
